Ms. Julie Ownbey, Regulatory Affairs Manager
Clearon Corporation
95 MacCorkle Avenue, S.W.
South Charleston, WV 25303

Subject: Notification Of Alternate Brand Name Per PR Notice 98-10
Product Name: **CDB® 90 3 Inch Chlorinating Tablets**
EPA Registration Number: **69470-19**
Application Date: January 4, 2013
Application Receipt: January 7, 2013

Dear Ms. Ownbey:

This acknowledges receipt of your Notification application, submitted under the provisions of FIFRA section 3 (c) 9 and PR Notice 98-10.

Proposed Notification:

Clearon Corporation is clarifying the Alternate Brand Name for **EPA Reg. No. 69470-19:**

CDB® 90 Industrial Water Biocide Tablets

General Comments:

Based on the review of the material submitted, the following comment applies. The Notification application is **Acceptable**. A copy of the accepted Notification is attached in you File (**EPA Reg. No. 69470-19**) for future reference.

If you have questions or comments with regard to this Agency Letter, the please contact Killian Swift via email at Swift.Killian@epa.gov or by telephone at **703-308-6346**. When you are submitting information or data in response to this Agency Letter, please send a copy of this Agency Letter with your response in order to facilitate processing.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Monisha Harris".

Monisha Harris,
EPA Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510P)

Please read instructions on reverse before completing form.

Subject: CDB[®] 90 3" CHLORINATING TABLETS (Agency Letter dated November 17, 2010).

NOTIFICATION OF ADDITION OF ALTERNATE BRAND NAME PER NOTICE 98-10

Clearon Corp., with offices at 95 MacCorkle Ave., S.W., South Charleston, WV 25303, is submitting this notification to correct the alternate brand name approved by the agency on November 17, 2010. The alternate brand names submitted to the agency and approved by the agency, had inadvertently left "Tablets" off the brand name. Therefore this notification is to inform you we are requesting to correct and add the following alternate brand name to primary product listed above.

The name of the alternate brand is:

- CDB[®] 90 Industrial Water Biocide Tablets

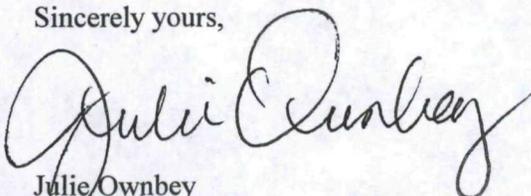

"This notice is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

Please find enclosed:

- An application form that includes the required notification language.
- A copy of the approved letter from the agency dated (November 17, 2010)
- One copy of the label with the alternate brand name.

Should you have any questions regarding this request, please feel free to contact me at the email address Julia.Ownbey@ICL-IPA.com or telephone me directly at 304-720-3924.

Sincerely yours,

Julie Ownbey
Regulatory Affairs Manager

Active Ingredient:

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER
CORROSIVE
CAUSES IRREVERSIBLE EYE DAMAGE OR SKIN BURNS
MAY BE FATAL IF INHALED
MAY BE FATAL IF ABSORBED THROUGH SKIN

Do not breathe dust or spray mist. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear protective clothing, chemical-resistant gloves, and protective eyewear (goggles or safety glasses) when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Use only clean dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

EMERGENCY HANDLING: In case of contamination or decomposition do not reseal container. If possible, isolate container in open well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

INDUSTRIAL WATER BIOCIDES TABLETS

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

FOR USE IN INDUSTRIAL RECIRCULATING WATER COOLING TOWERS, AIR WASHERS & EVAPORATIVE CONDENSERS:

Treatment with this product is an effective way to control the growth of bacteria and algae in industrial recirculating water cooling towers, air washers and evaporative condensers. 1. Badly fouled systems should be cleaned prior to initiating treatment. 2. Initial Dosage - When the system is just noticeably fouled, add 8 oz. of this product per 10,000 gallons of water contained in the system. Repeat this dosage, if necessary, until free available chlorine level (FAC) of 0.5 - 1.0 ppm is obtained (as determined by use of a reliable test kit). 3. Maintenance Dosage - To obtain a FAC of 0.5 - 1.0 ppm, add 0.8 - 1.6 oz. of this product per 10,000 gallons of water daily or as needed. 4. This product should be added to the system at a point where adequate flow is maintained. Variations in water temperature, chlorine demand and flow rate will affect the dissolution rate. Warmer seasons may require an upward adjustment of the FAC.

Air Washers: For use only in industrial air washer systems that maintain effective mist eliminating components. Hypochlorite controls slime-forming bacteria and fungi in air washer systems. This product may be added to the system either continuously or intermittently or as needed. The frequency of feeding and duration of the treatment will depend on the severity of the problem. **BADLY FOULED SYSTEMS** should be cleaned prior to initiating treatment.

1. Initial Dosage - When the system is just noticeably fouled, add 0.4 - 0.5 lbs. of this product per 10,000 gallons of water contained in the system. Repeat this dosage, if necessary, until a free available chlorine level (FAC) of 0.5 - 1.0 ppm is obtained (as determined by use of a reliable test kit). 2. Maintenance Dosage - To maintain a FAC of 0.5 - 1.0 ppm, add 0.8 - 1.6 oz. of this product per 10,000 gallons of water, daily or as needed. 3. This product should be added to the system at a point where adequate flow is maintained. Variations in water temperature, chlorine demand and flow rate will affect the dissolution rate. Warmer seasons may require an upward adjustment of the FAC.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage and disposal. **PESTICIDE STORAGE:** Store in a dry, cool and well-ventilated area. Avoid moisture getting into container. Keep off wet floors. In case of spillage, wash with large amounts of water. After each use, keep container tightly closed. Oxidizing material. Keep away from flames, sparks and all sources of heat. Avoid contact with organic material.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling, if available.

WARRANTY

Seller warrants that this product conforms to the chemical description and is reasonably fit for the purposes stated on the label when used in accordance with label directions under normal conditions of use. But to the extent consistent with applicable law neither this warranty nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to Seller and Buyer assumes the risk of any such use.
